OBJECTIVE

Getting a job in an organization where I can use and enhance my knowledge and talent for the development of both the organization and myself.

ACADEMIC PROJECT

Final Year B.E. Project:

 "Optimal allocation of capacitor in radial distribution system"
Description:

In this project, optimal allocation and sizing of shunt capacitor in Radial Distribution Network (RDN) for minimizing the real power loss and cost of the system. Capacitor placement and optimal size and of shunt capacitor is determined by using Particle Swarm Optimization (PSO) and Genetic Algorithm (GA) and improve power factor after capacitor placement

Final Year Diploma Project:

"Criminal file database management system"
Description:

This is a desktop-based application developed for Police Station to store the information about criminals. So this is automatically reduced the paper used in police stations and also no need to maintain the files related to crimes.

EDUCATION

July/2018	**B. E. in Electrical Engineering** Des'sCoet Dhamangaon (Rly) Dist. Amaravati Sant Gadge Baba Amravati University, Amravati 8.02 CGPA
May/2015	**Diploma in Computer Technology** Govt. Polytechnic Bramhapuri Dist. Chandrapur 66%
March /2012	**HSC** Dr. Babasaheb Ambedkar Jr College Desaiganj 48.50 %
March /2009	**SSC** K. K. High School, Surbodi, Maharashtra. 64.15%

EXTRACURRICULAR ACTIVITY

Actively participated in **"Project Competition"** organized by Electrical Engineering Student Association (EESA), DES's College of Engineering, Dhamangaon(Rly) in August 2018.
